Gjensidige Forsikring provides alternative performance measures (APMs) in the financial reports, in addition to the financial figures prepared in accordance with the International Financial Reporting Standards (IFRS). The measures are not defined in IFRS (International Financial Report Standards) and are not necessarily directly comparable to other companies' performance measures. The APMs are not intended to be a substitute for, or superior to, any IFRS measures of performance, but have been included to provide insight into Gjensidige's performance and represent important measures for how management governs the Group and its business activities. Key figures that are regulated by IFRS or other legislation, as well as non-financial information, are not regarded as APMs. Gjensidige's APMs are presented in the quarterly report and presentation. All APMs are presented with comparable figures for earlier periods. The APMs have generally been used consistently over time. Definitions and calculations can be found at www.gjensidige.no/group/investor-relations/reports.
